

JOB VACANCY

Production Engineering & Quality Manager - Electronic Manufacturing Sector

Fordingbridge, Hants, UK

Location: Fordingbridge, Candidates must live within a 40 min drive of Fordingbridge

Salary: Competitive

Role

This is an exciting opportunity to join a rapidly expanding business. You and your team will be responsible for supporting the UK and sub-contracted manufacturing through the development and maintenance of build documentation, test specifications and also the development of processes and procedures throughout the company to increase efficiency and quality.

Main Duties

- Manage a team of Inspectors, production engineers and quality engineers.
- Ensure processes and procedures are adhered to, particular with regard to change control and new product introduction.
- Proactively drive continual improvement activities for processes and procedures throughout the company.
- Provide technical support and management of product issues identified by Suppliers and Customers both Internal and external.
- When required, support other areas of the business when and where the need arises, as directed by Operation Manager
- Promote and maintain quality within the organisation.

Candidate Desirable Attributes

- Education to degree level or equivalent experience.
- Experience in contract manufacturing and/or the electronics industry.
- Good communication and presentation skills, both verbal and non-verbal with a good understanding of written English.
- Can speak and understand English.
- Be self-motivated and be able to motivate others.
- Computer literate in all areas of Microsoft Office.

A clean driving licence is required. A non-smoker is essential.

Benefits include:

- Professional development plan with the opportunity to progress
- Responsibilities commensurate with achievement
- Discretionary bonuses
- Free use of onsite gym
